
World Ozone Day - 2008

Septembt 16, 2008 - Every year, September 16 is celebrated to mark the international day for the preservation of ozone layer. With this year's theme, "Montreal Protocol - Global partnership for global benefits", there will be several events organized throughout the globe marking this important day. Please find important information about this day by reading the following documents, which are released by United Nations Environment Programme (UNEP):

- UN Secretary General's message: [CLICK HERE](#)
- Press backgrounder: [CLICK HERE](#)
- Posters for the day's celebration: [CLICK HERE](#)
